Draft: 14.70m	a) For arrival 2kt window for First Narrows. b) On departure over 8.5m draft OR 2kts at First Narrows will require two tractors. c) Lineboat always required at this berth for arrivals.	26-Apr-2021	20-Jan-2023		
First Narrows	FN	15.0	<p>First Narrows restricted only for vessels with over a 14.0m draft. Windows for such vessels are set for a two (2) knot current &amp; 10% LKC for falling and rising tide. Aircraft restrictions start at: 56.57m for vessels with a beam of 45m or less 56.27m for vessels with greater than 45m beam.</p>											15-Jul-2015
Fraser River		9.5m Design Grade	<p>Due to the dynamic nature of the river agents must contact the dispatch office 24 hours prior to vessel arrival in the river to have their windows confirmed by the Pilot Committee. Outbound vessels must have their windows confirmed 12 hours prior to departure. Maximum vessel size in the river is 270m in length and 32.3m breadth. Special requests for vessels beyond this maximum size will be considered by the pilot committee on a case by case basis. The navigation channel is designed and maintained to provide a transit draft of 11.5m, always subject to tidal assist.</p>
